Introduction

At TSS our company philosophy is aimed at providing the full range of Sports & Leisure nets and services to our customers with integral safety and quality in mind. We are leading this field by providing Safety nets as well as Sports & Leisure nets backed up with Technical, Training, Rigging, and maintenance support services.

We pride ourselves on having in-depth industry and market knowledge and understanding the need of our customers.

Our tremendous growth in such a short space of time shows our customer's confidence in our products and services providing us with the inspiration to continue our journey in providing a safer workplace for our customers.

Since its inception, TSS has grown organically, predominantly through referral and customer satisfaction which is a testament to the high standards we work to and our dedication to our customers.

CERTIFICATES OF EXCELLENCE OF THE COMPANY

CERTIFICATE AENOR ER0167/2001 and **CERTIFICATE IQNet** confirm that our management system complies with the current international standard **ISO 9001**. We are a reliable partner that has a management system under external control.

CERTIFICATE OF ORIGIN demonstrates that 100% of our products are manufactured in Spain.

QUALITY CERTIFICATES

OEKO-TEX CERTIFICATE confirms that all our polypropylene nets meet all international environmental standards and restrictions on hazardous substances (according to REACH regulation). The fiber has been assigned Product Class 1 (items for babies and infants), which is the most restrictive in its scale.

AITEX FIRE REACTION CERTIFICATE confirms the highest class "M1" to our flame-retardant polypropylene fiber.

B1 CERTIFICATE OF FIRE REACTION confirms the compliance with DIN 4102-1.

CERTIFICATE UKAS OF FIRE REACTION confirms that flame retardant nylon nets meet the requirements of NFPA 701.

CERTIFICATES OF CONFORMITY OF THE PRODUCTS

CERTIFICATES AENOR, EURO TEST, GS confirm that safety nets comply with **EN-1263-1. CONFORMITY CERTIFICATE** confirms that our safety nets are tested to meet or exceed **ANSI A10.11**.

CE CERTIFICATE confirms compliance with the **EN-1891** standard of a Type A Semi-static rope.

DECLARATION OF CONFORMITY signed by the Director-General.

CERTIFICATE RITT SPORT LOISIRS confirms compliance with the French standard **NF S 52-106**, which regulates the production of ski-protection nets:

- a) for rigid posts (S1);
- b) for flexible posts (S2).

DEKRA CERTIFICATE confirms the conformity and quality of container nets.

WHY KNOTLESS TECHNOLOGY?

ALWAYS SAME MESH SIZE

All knotted netting must be treated in heat autoclaved for mesh stabilization, so they remain fixed. And if it's not done properly, it can cause different mesh sizes within the same net. This is impossible for knotless meshes which are fixed forever.

SPACE SAVING

Knotless nets take less space and are easier to pack. Therefore, this feature helps to save money while transporting.

LIGHT WEIGHT

Knotless nets are lighter than knotted. It is also an important value when transporting and mounting large nets.

HARMLESS IN CASE OF FALL

Knotless nets are harmless in case of catching peoples. This feature could be different with knotted nets when people can have dangerous scratches and burns.

WHY HIGH TENACITY POLYPROPYLENE (PPhT)?

To UV rays, cold / hot.

To acids. It can't damage our PPhT except boiled Xylene.

To dirt. Our polypropylene doesn't react with cement, paint or other substances.

To water. PPhT doesn't absorb it and has less density so it floats.

In fact, PPhT doesn't conduct electricity.

PPhT is 100% recyclable and eco-friendly.

Anti-allergic with OEKO-TEX certificate.

Without microorganisms

because PPhT blocks the light that form bacteria and microbes.

Several colours, sizes and shapes.

Guarantee

We are a financially stable company maintaining Quality Management System which fulfills the requirements of the following standard ISO 9001:2015. Also, having the certificates like IQNET, AENOR, EUROTTEST, GS, we are always supervised by external international auditors.

Best value

At our own laboratory with modern equipment we check the raw material and final product by chemical, static, dynamic and aging test to ensure its highest quality, so the nets have the appropriate strength and mesh size. Each production is controlled by R & D department directed by personnel with specific training in textile

Flexibility of production & customization

We can produce the nets of any size, color, form.

Production experience transmitted from generation to generation that allows to make the most difficult netting projects. We can personalize the nets using custom label with your logo or advertisement on the same net or PVC band.

Fast service

We are differentiating from the others by lingual flexibility and by wishing to find solutions which will help save time and money to our partners.

Our delivery time varies seasonally, but for special requests we have FAST-TRACK service that can be helpful in urgent situations.

Comfortable packaging & marketing support

We take care of every detail for having all products nicely packed for a more comfortable experience of the end customer. We are also actively improving online and offline marketing tools that help our customers to be different.

Football Nets

Our football nets are used for the main international football competitions.

FOOTBALL CONFEDERATIONS CUP:
 South Africa (2009)
 Brazil (2013)
 Russia (2017)

FOOTBALL WORLD CUP:
 South Africa (2010)
 Brazil (2014)
 Russia (2018)

ASIAN CUP:
 in Australia (2015)
AMERICA CUP:
 in Chile (2015)
EURO:
 in France (2016)

"The quality of our nets regarding durability and resistance is internationally recognized."

TSS Sports Nets produces high quality football nets in a large variety of both regular and custom sizes upon request. Meeting all the requirements of the **EN748**, our finest UV treated Polypropylene football goal nettings are demanded for the top football clubs around the world and are present on the most important competitions.

The strength and durability of our football goal nets is well recognised. Our cleverly designed knotless football nets are made of high tenacity, UV stabilised and rot-proof polypropylene. All our full size football goal nets are available in both solid and multiple colour options to fit all styles of football goal posts. Our football nets can match most team colours.

Our football netting meets all the requirements of the **EN 748 standard:**

- Mesh size is not more than 120mm.
- Thickness diameter is more than 2 mm.
- Have a tension rope along the back for a better fixation of the net.

Our backstop nettings offer tough protection with near-perfect visibility with incredible strength-to-weight. We can design, engineer and build your custom nets for cricket, baseball or any kind of sport project.

UHMWPE is one of the strongest and lightest materials for netting in the world.

Its strength to weight ratio is 8-15 times greater than steel.

- Knotless **UHMWPE** netting provides better audience visibility.
- **UHMWPE** netting offers outstanding resistance to UV rays, sea water, abrasion and rupture with the very little thickness of the thread.
- Light weight offers cheaper transportation and easier installation.
- Available in different thicknesses and meshes.

Our handball goal nets offer the following advantages:

- A high strength mesh and energy absorption capability.
- The lightweight design and soft structure of the nets make them easier to assemble.
- Precise mesh size because of the way the joins in the mesh interlock.
- Very little abrasion / high resistance to chafing.

Our handball/futsal nets meets all the requirements of the **DIN EN 749** standard:

- Mesh size is not more than 100 mm;
- Thickness diameter is more than 2 mm
- Have a tension rope along the back for easy and safe installation.

Tennis & Paddle Nets

Our Nets are used for the main International Tennis and Paddle Competitions.

**108th
DAVIS CUP 2019
100th
DAVIS CUP 2011**

**ATP
WORLD TOUR
250
QATAR OPEN**

**ATP
MASTERS SERIES
MADRID OPEN
2002**

Stocking Europe's largest range of nets sizes, Leon de Oro draws on over 40 years of experience in the industry.

TSS Sports Nets is at the forefront of net design and development, with new netting technologies constantly being introduced. We can cater to your custom netting requirements. Our extensive warehouse capabilities allow IMMEDIATE supply of large scale orders, with shipping available throughout worldwide. Our 50mm high pvc webbing net tape with 4 rows of stitching and UV resistance give our nets a neat finish and long lasting durability.

Our tennis and paddle nets meet all the requirements of the EN 1510 standard:

- Mesh size is less than 45 mm;
- The tensioner cable (less than 8 mm in diameter) should be inside top band of the net.
- Have a tension rope along the back for a better fixation of the net.

The strength and durability of our paddle nets is well recognised and approved for the **Spanish Paddle Federation (RE 17/00022)**. Our cleverly designed knotless nets are made of high tenacity, UV stabilised and rot-proof polypropylene.

Nets for Discus Throw & Hammer Cages

**BARCELONA
OLYMPIC GAMES
1992**

Discus Cage Nets comply with the standard **DLV 190.3** and Hammer Cage Nets comply with the **DLV 192.3**.

**PAN-AMERICAN
GAMES
2019**

According to the rules of competition of the **International Association of Athletics Federations**, the nets for disc and hammer cages are designed to stop a disc weighing 2 kg. flying with a speed of up to 25 m/s and a hammer weighing 7.26 kg flying with a speed of up to 32 m/s.

**WORLD
CHAMPIONSHIPS
IN BERLIN
2009**

Each disc / hammer cage net is equipped with three test meshes that have their own unique registration number so that after one year of use, the user could test the breaking force by sending a mesh to our laboratory.

After testing, the user will receive a certificate from the manufacturer if the net is suitable for use for one year more.

Up-Folding Dividing Curtains

TSS Sports Nets manufacture dividing nets & curtains for schools, leisure centres and other facilities over countries.

Up-folding dividing curtains aim to divide spaces in a sport hall. They provide a visual separation of two or more fields taking advantage of the lighting of the installation thanks to using of the net.

Easy movement of the net to provide flexibility with the use of the space.

The curtain is made with net on the top and PVC tarpaulin on the bottom. It is available in flame retardant version, and is customized in terms of thickness, mesh, colour and measurements.

Flame-Retardant Nets

B1 Flame retardant nets suitable for outdoor use.

TSS Sports Nets FR nets are produced under B1 certification according to DIN 4102-1

Flame retardant nets are the ones that have retardation in the propagation and a rapid extinction of the flame. The grease of our **PPHT is fireproofed** before it's converted to the net. Therefore, the net does not lose its qualities, unlike the nets of other brands that obtain the flame-retardant treatment through the process of deep immerse.

Our flame-retardant nets are designed both for indoor and outdoor use where they do not lose their special property even after several years of use. Our flame-retardant nets are **classified as M1 and B1** and have the corresponding certificates

Ropes & Accessories

TSS Sports Nets offers a wide variety of installation accessories. In this catalog you'll find the most frequent accessories. For all other accessories, consult your personal manager.

ROPE 30 KN

Material: PaHT
 Diameter: 14 mm
 Minimum resistance: 30 kN.
 Article: 70021000000
 Roll: 100 ml

ROPE 30 KN

Material: PPHT
 Diameter: 12 mm
 Configuration: twisted
 Minimum resistance: 20 kN
 Article: 70421020000
 • Roll: 100 ml
 • Roll: 100 ml
 Configuration: braided
 Article: 70421020012

ROPE 15 KN

Objective: to attach the safety net to the structure (double branch).
 Material: PPHT
 Diameter: 10 mm
 Minimum resistance: 15 kN.
 Roll: 100 ml.
 Configuration: braided
 Article: 70425000114
 Configuration: twisted
 Article: 70425000000

RAFFIA ROPE 15 KN

It is used in two fold position for mounting the nets of System S. NB: this rope is not certified.
 Material: PPHT raffia
 Diameter: 10 mm
 Breaking force: 15 kN
 Articles:
 Orange: 70428000100
 White: 70428000101
 Blue: 70428000103
 Roll: 220 ml. MOQ: 108 roll/pallet

ELASTIC ROPE

Material: Rubber latex inside and high tenacity polyester shirt.
 Articles:
 6 mm white: 70016000200
 8 mm white: 70018000200
 8 mm blue: 70418000203
 Roll: 200 ml

ROPE 14 MM EN 795

Diameter: 14 mm
 Configuration: braided
 Breaking force: 40 kN
 Article: 70421400002
 Roll: 100 ml
 Features: The rope serves for horizontal and vertical lifelines and complies with all the requirements of EN 795

SEMISTATIC ROPE EN 1891 "GOLDEN ROPE" 30 KN
